

ITEM: 7

SUBJECT: Irrigated Lands Program

BOARD ACTION: *Discussion of Basin Planning, Waste Discharge Requirements, and Conditional Waiver Regulatory Alternatives*

BACKGROUND: The Regional Board has several alternative administrative mechanisms available to regulate discharges of waste from irrigated agriculture. These include the adoption of a regulatory program through the Basin Planning process, the adoption of General or Individual Waste Discharge Requirements, the adoption of General or Individual Conditional Waivers, and various combinations of these mechanisms.

The Regional Board's legal counsel., will discuss these regulatory alternatives and the advantages and disadvantages of each alternative.

ACTION: *Information Item Only – No Action Will Be Taken*
