PUBLIC HEARING

concerning

Notice of Application for Renewal of Waste Discharge Requirements
(National Pollution Discharge Elimination System Permit)
for

**AEROJET-GENERAL CORPORATION
SACRAMENTO COUNTY**

Aerojet-General Corporation currently discharges various process waters, consisting primarily of non-contact cooling water and cooling tower and boiler blowdowns, to ground and drainages to Buffalo Creek and Alder Creek, tributary to the American River. Numerous other discharges such as eyewash stations and cooling system condensate, are also included in the permit as de minimus dischargers. Business activities at the Aerojet facility include development of rocket propulsion systems, engineering, manufacturing and testing, and custom and specialty chemical and pharmaceutical manufacturing and related activities. The proposed permit renewal reflects the current operating conditions at the site that have resulted in a significant reduction in industrial activities and discharges.
