

<b>Witness</b>	<b>Qualifications</b>	<b>Subject of Testimony</b>	<b>Time</b>
Victor Izzo	Register Professional Geologist, twenty three years working for Central Valley Regional Water Quality Control Board overseeing operating and abandon mine closure and cleanup, landfill operations and other site cleanup.	Testifying that there is old mine sites in Sulphur Creek area that includes mining waste. The mines past and present landowners and operators need to characterize the mining waste and based on the characterization do the appropriate cleanup to mitigate the present and future impacts by the mines and mining waste on water quality in the Sulphur Creek area.	30 to 45 minutes
Jeff Huggins	<p>Graduated from Montana Institute of Mineral Science and Technology (Montana Tech) in 1989 with a Bachelor of Science in Mining Engineering.</p> <p>From 1989 to 1998, I worked primarily for Vector Engineering of Grass Valley California on design and construction of large scale heap leach facilities, tailings impoundments, landfills, and other small scale engineering project in most of the western states and on four major mining projects in Chile.</p> <p>From 1999 to 2005, I worked for RidgeRock Quarry in Nevada County in the production of aggregate products for the building and construction industry.</p> <p>From 2006, I have been employed by the Central Valley Water Board in the Title 27 Permitting and Mining Unit, working primarily on mining related water quality issues</p>	Same as above	As needed – likely 15 minutes
