

**LATE REVISIONS – 13 October 2011**

- Item 8.** TEJON-CASTAC WATER DISTRICT, TEJON INDUSTRIAL COMPLEX, NEW EAST WASTEWATER TREATMENT FACILITY, KERN COUNTY – Consideration of tentative Waste Discharge Requirements No. R5-2011-XXXX.

**Title Blocks, Headers**

Change the title blocks and headers in the waste discharge requirements, monitoring and reporting program, and information sheet to reflect that Tejon Ranch has changed the complex names from Tejon Industrial Complex East and Tejon Industrial Complex West to **Tejon Ranch Commerce Center**.

**WDRs Finding 6**

Page 1, edit Finding 6 as follows:

6. The Existing East WWTF will continue to serve the Blue Beacon truck wash until it is relocated within the Tejon Industrial Complex East. The relocation is expected to take place in April 2011, at which time Blue Beacon will be connected **discharge** to the New East WWTF **can be effected**. Thereafter, the Existing East WWTF will be used for emergency purposes only and will continue to be regulated under Order No. 5-01-002.

**WDRs Finding 11**

Page 2, edit Finding 11 as follows:

11. The Tejon Industrial Complex East will serve the same types of businesses as that of the Tejon Industrial Complex West. Therefore, the influent wastewater quality for the New East WWTF is expected to be similar to that of the West WWTF. **The Tejon Industrial Complex East and Tejon Industrial Complex West are now called Tejon Ranch Commerce Center.**

**H. Provisions:**

Page 24, modify Provision H.22 as follows:

22. Salinity Minimization. The Discharger shall comply with Effluent Limitation B.2 according to the following compliance schedule:

<u>Task</u>	<u>Compliance Date</u>
-------------	------------------------

a.	Submit a technical report in the form of a work plan and time schedule to identify sources of effluent salinity and a time schedule to implement mitigation measures to reduce salinity and ensure that the discharge consistently meets Effluent Limitation B.2.	<b>12 January 2012</b>
b.	Commence work plan.	<b>30 days</b> following Executive Officer approval of Task a, but in no case later than <b>15 April 2012</b> .

c.	Submit progress reports.	<b>Monthly.</b>
d.	Provide a technical report documenting all mitigation measures identified and implemented.	<b>15 October 2013</b>
e.	Achieve consistent compliance with Effluent Limitation B.2.	<del><b>15 April 2014</b></del> <b>15 May 2015</b>

Technical reports submitted pursuant to the Provision shall be prepared in accordance with Provision H.6 and are subject to Executive Officer approval as to adequacy.
