

CALIFORNIA REGIONAL WATER QUALITY CONTROL BOARD  
COLORADO RIVER BASIN REGION

ORDER NO. 81-13

WASTE DISCHARGE REQUIREMENTS  
FOR  
MASSEY SAND AND ROCK  
North of Palm Springs - Riverside County

The California Regional Water Quality Control Board, Colorado River Basin Region, finds that:

1. Massey Sand and Rock Co. (hereinafter also referred to as the discharger), P.O. Box 1767, Indio, CA 92202, submitted updated information on the discharge of wastes on October 14, 1980.
2. The discharger is discharging a total of 19,000 gallons-per-day of wastewater from facilities consisting of a washer at a sand plant, and a washer at an asphalt-sand plant. The wastewater from both plants is discharged into a lined basin which overflows into two unlined basins. The wastewater is recirculated for use in the washing operations, plus is spread out on on-site roads for dust control. The basins are located in the NW 1/4 of the SW 1/4 of Section 23, T3S, R4E, SBB&M.
3. The discharge from these industrial facilities have been subject to waste discharge requirements adopted in Board Order No. 71-47.
4. The Water Quality Control Plan for the West Colorado River Basin was adopted by the Board on April 10, 1975. The Basin Plan contains water quality objectives for the Coachella Hydrologic Subunit.
5. The beneficial uses of the groundwater of the Coachella Hydrologic Subunit are:
  - a. Municipal supply
  - b. Industrial supply
  - c. Agricultural supply
6. The Board has notified the discharger and interested agencies and persons of its intent to update waste discharge requirements for the discharge.
7. The Board in a public meeting heard and considered all comments pertaining to the discharge.

*Superseded  
by  
86-64  
11/19/80*

8. This wastewater disposal operation constitutes an ongoing project in accordance with the provisions of the California Environmental Quality Act (Public Resources Code Section 21000 et seq.) and Title 23, California Administrative Code, Chapter 3, Subchapter 17, Section 2715, because the governmental approvals on or after April 5, 1973, do not involve a greater degree of responsibility or control over such activity than the governmental approvals received prior to that date.

IT IS HEREBY ORDERED, the discharger shall comply with the following:

A. Discharge Specifications

1. Neither the treatment nor the discharge of wastewater shall create a pollution or nuisance as defined in Division 7 of the California Water Code.
2. Infiltrating wastewaters shall not contain constituents in excess of the following limits:

<u>Constituents</u>	<u>Units</u>	<u>Maximum</u>
Total Dissolved Solids	mg/l	300

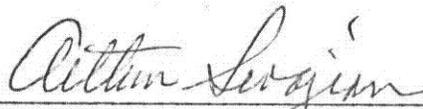

3. Wastewater with chemical constituents in excess of the limits prescribed in Discharge Specification No. 2 (above) shall be retained in impervious basins with ultimate discharge at a location approved by the Regional Board.
4. There shall be no surface flow of wastewater away from the designated disposal area.
5. Adequate protective works shall be provided to assure that flood or surface drainage waters do not erode or otherwise render portions of the disposal facilities inoperable.

B. Provisions

1. Prior to any material change in the quality or quantity of wastewater discharged, or any material change in the location of discharge, the discharger shall report thereon to the Board.
2. In the event of any change in operation, or in control or ownership of the land used for wastewater disposal, the discharger shall:

- a. Notify this Board of such change; and
  - b. Notify the succeeding owner or operator by letter of the existence of this Order; and file a copy of said letter with the Board.
3. The discharger shall comply with "Monitoring and Reporting Program No. 81-13" and future revisions thereto, as specified by the Executive Officer.
  4. This Order supersedes Board Order No. 71-47.

I, Arthur Swajian, Executive Officer, do hereby certify that the foregoing is a full, true, and correct copy of an Order adopted by the California Regional Water Quality Control Board, Colorado River Basin Region, on January 28, 1981.

MONITORING AND REPORTING PROGRAM NO. 81-13  
FOR  
MASSEY SAND AND ROCK COMPANY  
North of Palm Springs - Riverside County

Location of Waste Discharge: NW 1/4, SW 1/4 of Section 23, T3S, R4E,  
SBB&M.

MONITORING

Samples shall be taken of wastewater being discharged into infiltration basins. The monitoring program shall be as follows:

<u>Constituents</u>	<u>Unit</u>	<u>Type of Sample</u>	<u>Sampling Frequency</u>
Total Dissolved Solids	mg/l	Grab	Quarterly

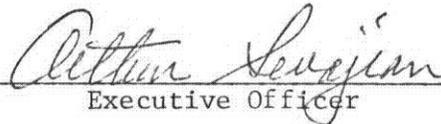

REPORTING

Quarterly monitoring reports shall be submitted to the Regional Board by April 15, July 15, October 15, and January 15 of each year.

Forward monitoring reports to:

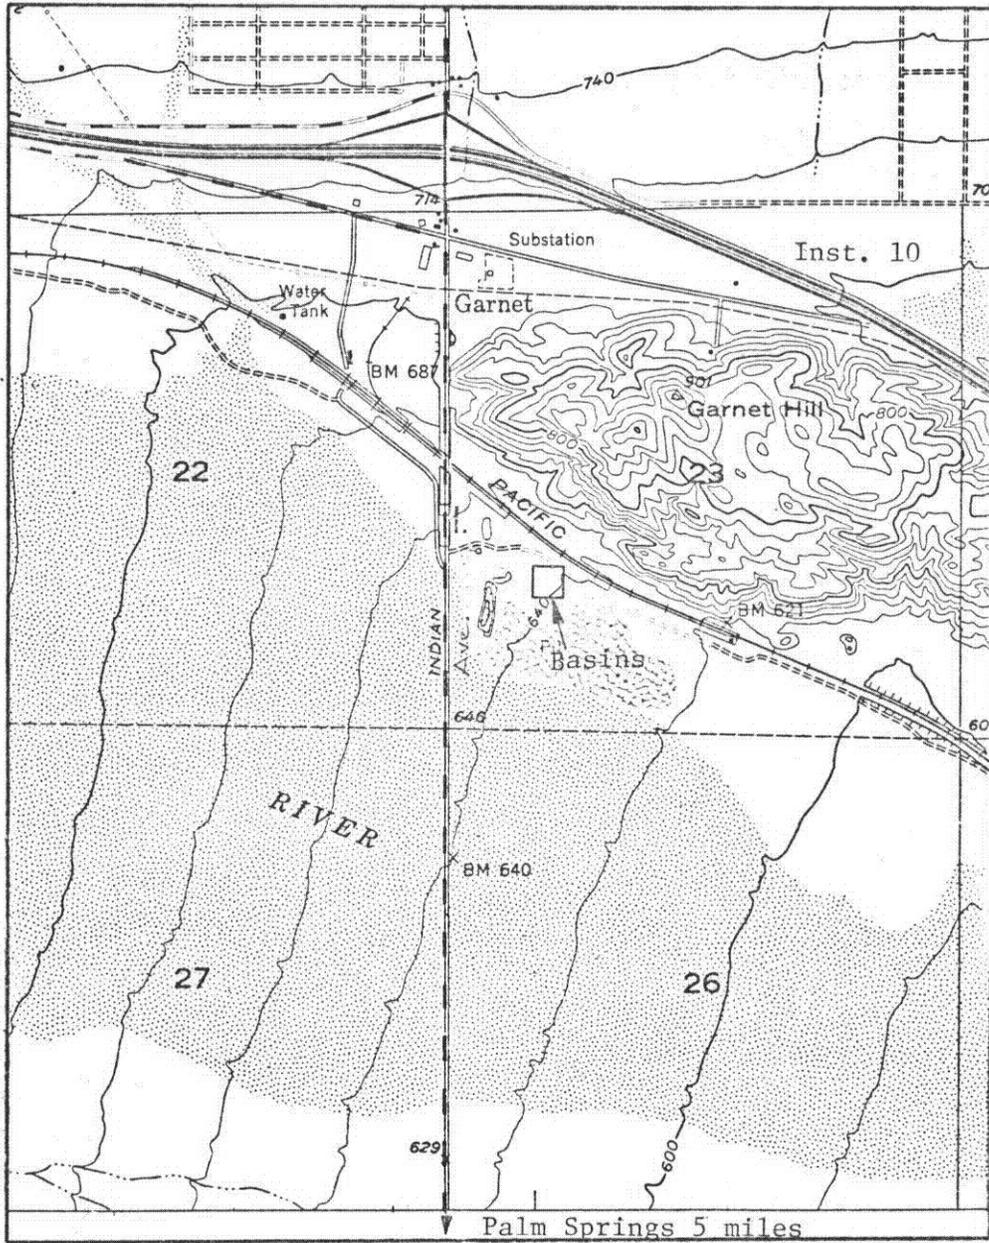

California Regional Water Quality Control Board  
Colorado River Basin Region  
73-271 Highway 111, Suite 21  
Palm Desert, CA 92260
