REGION 7

January 30<sup>th</sup>, 2012

Mr. Jose Angel  
Assistant Executive Officer  
Regional Water Quality Control Board, Division of Water Quality  
Colorado River Basin Region  
73-720 Fred Waring Drive, Suite 100  
Palm Desert, CA 92260

**Subject: Seeley County Water District – NPDES Permit No. CA0105023  
Administrative Civil Liability Compliant No. R7-2011-0030  
Compliance Project Proposal Update**

Dear Mr. Angel:

Summarized below for your review is our revised and finalized Compliance Project Proposal.

As you are aware, Seeley County Water District would like to request Regional Board's approval to complete a Compliance Project that will meet or exceed the **total amount** of mandatory minimum penalties assessed to date in order to correct the causes of the effluent limitation violations. Seeley County Water District also agrees to make payment for the discretionary penalties related to WDR violations (use of an uncertified lab) in the amount \$8,380.35.

Seeley County Water District proposes to make significant improvements to our wastewater treatment facility that should ultimately result in both *complete treatment* of our influent wastewater as well as *zero discharge* of effluent in to the New River.

Specifically, the Compliance Project would involve constructing a series of evaporation/percolation ponds in existing property located directly west and south of the current treatment ponds. On the next page for your review is the proposed list of improvements, along with Engineer's Opinion of Probable Construction Costs and related completion schedule:

File : 7A 13 0111 013, Seeley WWTP

We would greatly appreciate your consideration of this proposal at the upcoming Regional Board Hearing in January. Please be assured that we will continue doing everything we can to completely resolve all of our compliance issues.

Feel free to contact me if you have any questions or comments regarding this letter at (760) 760-457-9064.

Respectfully Submitted,

A handwritten signature in black ink, appearing to read 'Frank Cornejo', with a stylized flourish at the end.
