

### ***Notes about the February 2008 Basin Plan update...***

The nature of this update was to:

1. Update the formatting of the Plan, from a two column format to a full page width format;
2. Include the text, tables and exhibits of all Basin Plan amendments adopted since the Plan was last revised in 1995;
3. As called for by adopted Basin Plan amendments, remove text and tables from the Plan that have been replaced or deleted; and,
4. Revise page numbers accordingly.

The February 2008 Basin Plan update did NOT include any other changes, non-substantive or otherwise, beyond incorporating into the text of the Plan amendments that had been previously adopted and approved. Since all changes to the Plan included in the update had been previously approved by the Regional Board as Basin plan amendments, no administrative process was required or necessary to accomplish this update.

In addition minor, nonsubstantive editorial corrections were made in June 2011.
