**Subject:** We Kayaked around the Salton Sea

My husband & I kayaked around the perimeter of the Salton Sea in February 2016. We spent a week on the lake and camping along its edge. It was a magical time during which we saw more birds than we ever have before. The white pelican numbers were astounding. They made the water ripple around our boat and made our hearts soar. We love the Salton Sea and are anxious for its future prospects. Please do what you can to preserve this beautiful body of water.
